[illegible]

Dear [illegible],

A friend who has recently found a spent .22 short shell [illegible] bullet in a plaster wall [illegible] Houston area. He and I both think it is a genuine "plant". However, I feel my loan of it would be of [illegible] for any test or examination you might care to make. We feel this because it is so obvious a "plant" and because we have no way of knowing what if any deposition in Dealey Plaza we should not automatically assume that it could have no [illegible].

My friend, who has never been a supervisor in [illegible], believes it is a type designated as .22 [illegible].

[illegible] there were other [illegible] having a round fly [illegible] within [illegible] Sunday, possibly [illegible] consequence of [illegible].

In the course of this [illegible] my friend has always [illegible] conditions of [illegible] with a spent round he also sent me.

If you have any [illegible] we [illegible], I will be glad to deliver them to [illegible] by your local representative.

Sincerely,

[illegible]
